

# Weissach Autohaus Broker Service Program

*Connecting Buyers and Sellers of Quality Porsche Cars*

## **Setting a New Standard for Brokered Porsche Sales**

In addition to our beautiful inventory of Weissach owned and warranted cars, Weissach Autohaus offers first quality, brokered Porsche Cars. Those that know us won't be surprised to hear that we are taking this type of service to a new standard by providing full disclosure on every brokered Porsche including a complete Daniel Jacobs' Pre-Purchase Inspection (PPI). We think buyers will appreciate knowing they are buying a car they can trust and look for their next Porsche at Weissach.

## **Benefits to Sellers:**

***Traffic, Traffic, Traffic, like only Weissach Autohaus can deliver!!!***- From the professional showroom listing of your car on WeissachAutohaus.com (60,000 hits/month from Porsche buyers) to the prominent listing on popular auto websites all the way to the foot traffic that comes to visit the Weissach Autohaus showroom-- No one can generate more exposure to your Porsche than Weissach Autohaus.

***We do all the work!***- From PPI to photos to on line listings to dealing with potential buyers, we do all the work. With Weissach Autohaus' help you won't need to stay home on Saturday waiting for the "buyer" that says he going to show up but never does.

***Peace of Mind Applies to You Too!***- You'll sleep well knowing that your Porsche is receiving daily visibility in a Porsche showroom with regular business hours and on a Porsche destination website. And with a hard earned reputation for quality and customer care, you'll know that Weissach Autohaus will deliver the best possible price for your car.

***No Pie in the Sky Promises***- It would be easy for us to give you wild expectations on what your car will sell for but we think that is a waste of your time and ours. We'll give you our honest opinion based on many years of experience.

## **How it works:**

We'll work with you to come up with a selling price that is reasonable and fair. Then, we'll have a full PPI done on your car (at your cost I'm afraid), photo and post the car on-line and finally, find a buyer for you at your price with the buyer's check made out to you directly. Our broker's commission fee will be based on the selling price (fee varies with the car but will be set in advance). We also require that the car be left for a minimum of 60 days so we can give our best effort to selling your car. We won't promise what we can't deliver but we do think that we have the highest probability of selling your car at a price you'll be happy with and with minimal effort on your part.
